Have you ever wondered what a difference Terroir separated by a few miles would make in how the wine tastes? Wines produced from grapes grown in different terroirs, even if they are just a few miles apart, can indeed exhibit notable differences in taste, aroma, and overall profile. The variations in soil composition, sunlight exposure, temperature, and other factors can lead to differences in grape ripening, sugar levels, acidity, and phenolic compounds, all of which contribute to the final flavor of the wine.

Here's your chance to find out for yourself. Join us on September 24th when we will sample six stellar wines from the Châteauneuf-du-Pape bottled from the 2016 vintage compared to six wines grown near to Châteauneuf-du-Pape Appellation grown in the 2018 vintage. In one case the grapes are grown across the street from each other. These delicious wines will be accompanied by some fabulous foods prepared on the grill.

The Wines:

Six 2016 Chateauneuf du Pape's
Le Clos du Caillou "Les Safres"
Le Clos du Caillou "Les Quartz"
